Community Webinar #2

The second online project webinar was held on Tuesday 17 September 2024. The project's Senior Development Manager, Dean Smith, and Senior Environmental Consultant, Tristan Sleigh, discussed the environmental surveys that have been undertaken ahead of the submission to the Environmental Protection Authority and outlined the environmental impact mitigation strategies that have been incorporated into the project's design.

If you were unable to attend the webinar live, we will be uploading a recording and supplementary material to our website soon.

New Green Hydrogen and Green Ammonia Fact Sheet is now available online

Our newest Fact Sheet is now available online.

This fact sheet outlines what green hydrogen and green ammonia are and why the MGH will be producing hydrogen and exporting ammonia.

Community Benefit Sharing Framework Update

The MGH project has now completed its series of meetings with the Advisory Group as part of the co-designed Community Benefit Sharing Framework.

We would like to thank all of the attendees for their insightful contributions and for giving up their valuable time to do so.

MGH will continue liaising with the wider community and stakeholders as it develops the Framework, which will ensure fit-for-purpose investment in the community, should the project go ahead.

Subscribe to our newsletter to receive MGH updates

If you had this email forwarded to you and would like the latest project updates delivered directly to your inbox, make sure to subscribe to our newsletter by [visiting our website today](#).
